FOR THE GREENCARRIER GROUP

Within the Greencarrier group we pride ourselves on having skilled and committed staff. We are happy to say that we work successfully together and have fun at the same time. Humour & Joy are also among our company's core values. We have a positive attitude in the way we communicate and co-operate. Greencarrier recognizes its responsibility to perform its services and business activities with a high degree of ethics and have therefore defined some common principles or standards for our performance. The principles align with our core values (commitment, involvement, humour & joy) and apply for all our business activities, globally.

We take pride in our staff and strive to be a good employer. By investing in our staff's well-being and development, we secure qualified and highly motivated staff. By conducting business according to ethical, professional and legal standards we are a fair and honest business partner.

We stand for quality and personal commitment and we have a long term approach to everything we do. We want to be a responsible corporate citizen and we believe that by caring for the world around us, and the people in it, we become a better business partner and employer. This is part of our Greencarrier Spirit where we also encourage our employees to take part by setting aside a part of the Group's yearly profit in a fund to support CSR projects. We believe in the importance of environmental protection and improvement for the long term. Our ambition is to apply the best possible environmental practice whenever we can. We always strive to minimize environmental impact, aiming for continuity in everything we do. . This Code has been communicated to the whole Greencarrier organization and we expect all Greencarrier employees to follow these standards. We expect everyone, with whom Greencarrier has commercial dealings, to have a natural respect for our standards in the context of their own particular culture, to extend the same principles set out in this Code to their own organizations and all others with whom they do business and to comply with all relevant laws, regulations and directives in the country in which they operate.
